**CLAIMS 1-21 ARE PRESENTED FOR EXAMINATION**

Applicants' Response filed June 19, 2003 has been received and entered into the application. Accordingly, claim 17 has been amended.

In view of the above, as well as applicants' comments at pages 7-9 of their response the only rejections that remain are those presented below. All other rejections as set forth in the previous Office action dated February 12, 2003 are withdrawn.

***Double Patenting***

Claims 1-21 remain provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 6-24 of copending Application No. 10/012,730 for the reasons of record as set forth in the previous Office action at page 2.

Applicants' request that this rejection be held in abeyance has been noted. The Examiner will withdraw this rejection when it is the only issue remaining, i.e., when the rejection below is overcome or when claims 20 and 21 are canceled.

***Claim Rejection - 35 USC § 103***

Claims 20-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over the Martin Journal, already of record, for the reasons of record as set forth in the previous Office action at page 5.

Applicants' arguments that the composition produced by the method of claims 20-21 is not taught or suggested in the reference has been carefully considered, but fails to persuade the Examiner of error in his determination. The statements appearing in the claims as to how the

Art Unit: 1614

composition is to be employed are merely statements of intended use and do not impart any material limitation to the composition produced by the presently claimed method of preparing the composition or to the method itself that is not provided for in or else made obvious from the Martin reference.

Accordingly, claims 20-21 remain properly rejected.

None of the claims are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
